The software has been realized on scientific bases for single zero roulette (only live dealers, not RNG software) to guarantee long term winnings..

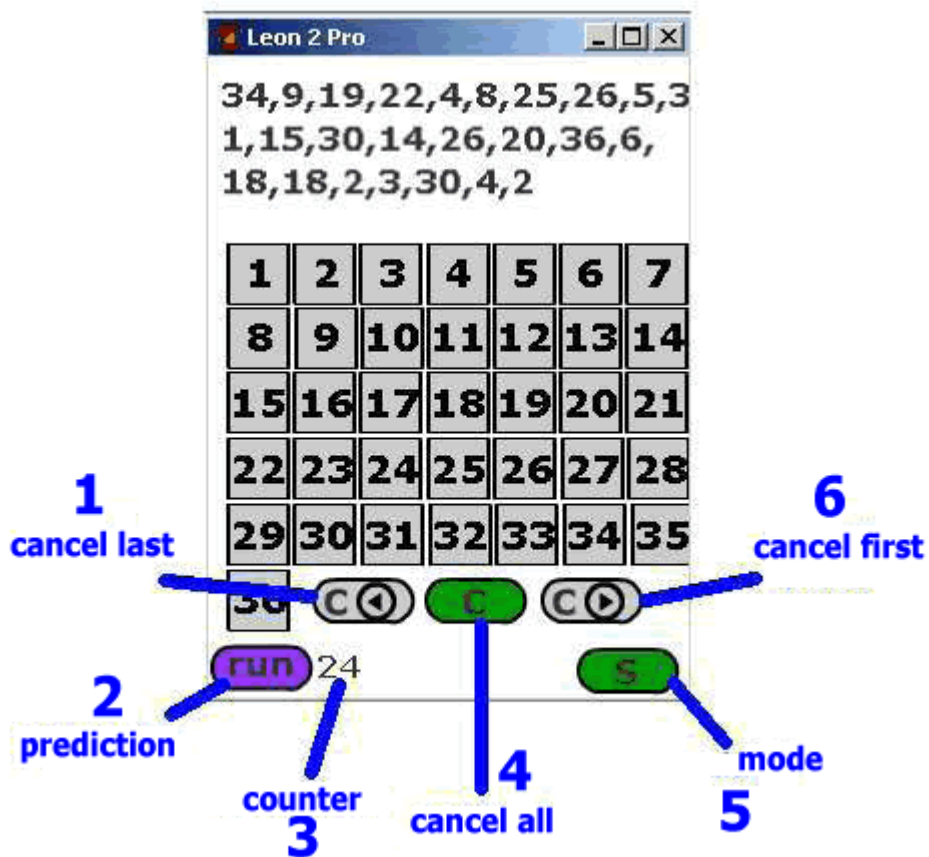

The new version of Leon 2 has three play mode::

1° - play on a single double street (one unit).

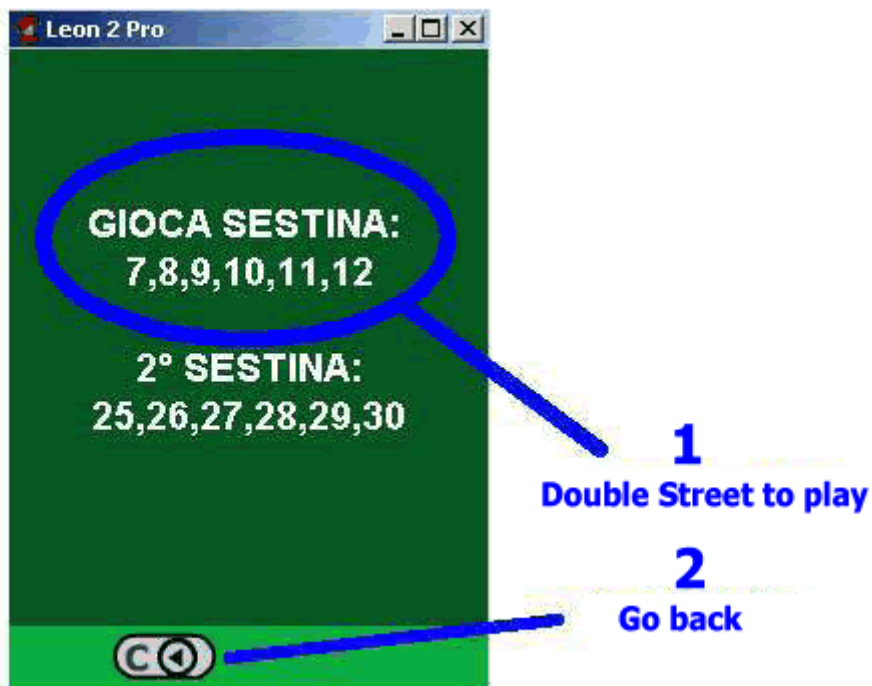

2° - play on two double streets (two unit).

3° - play on a single double street and its neighbors (from 5 to 12 units if we bet on straight up or splits).

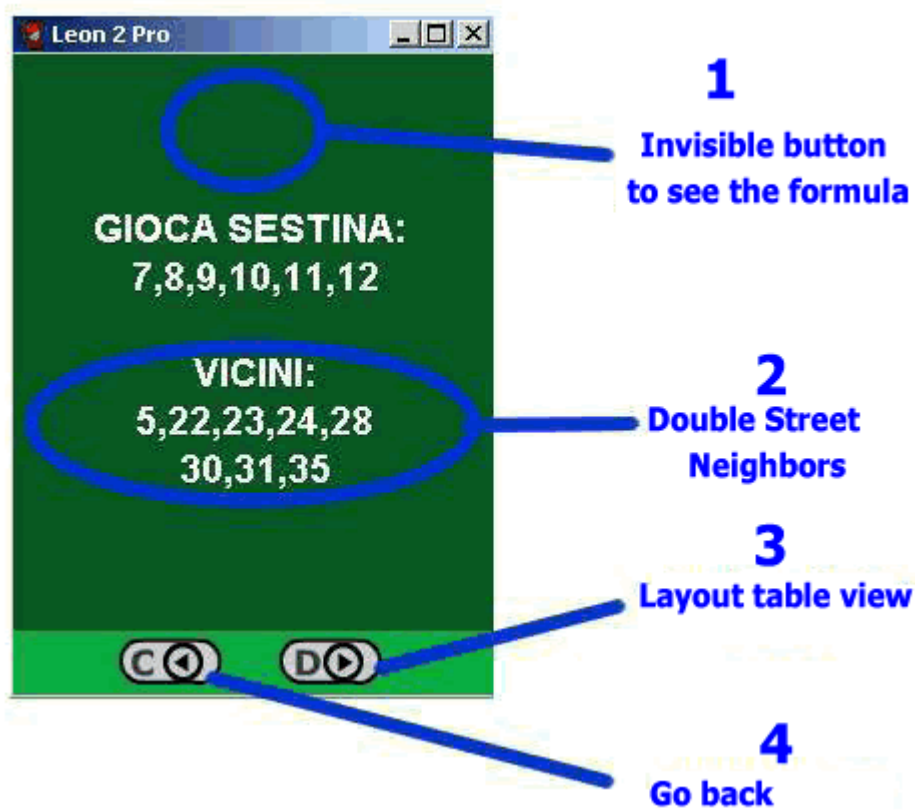

The button Mode switches from Double Street (S) to Neighbors (V) prediction.
